Subject:

Attached request

This request is related to an assignment discussed with CIA staff earlier this year.

6/20/84

Told Frank Degnon that we could not make requested documents available to him — ORCON controlled material. Also informed him that the Afghan refugee paper would not be of much use — it is short, mostly pictorial, and provided only basic material that would be available to GAO from other sources. Degnon said he would pass this information on to the requester.
